

Responsive. Dedicated. Professional.

- Full-service electrical contractor
- More than 60 years of innovation and quality
- Bonded, licensed and insured
- 24-hour emergency service

Enterprise
ELECTRIC

The experienced electricians, estimators and projects managers of Enterprise Electric are proud to provide electrical **design**, **construction** and **maintenance** services for **industrial** and **commercial** customers in four critical areas:

ENERGY MANAGEMENT

Our green techniques help customers reduce costs, maximize efficiency and minimize their footprint with high-efficiency/clean power solutions and energy monitoring and controls.

- Renewable energy sources
- Submetering
- Occupancy sensors, lighting retrofits and more
- Variable frequency drives

PRODUCTION EFFICIENCY

Our design, construction and maintenance solutions for industrial/commercial environments deliver optimum efficiency and reliability. Our 24-hour emergency service ensures maximum uptime.

- Motor control centers
- Facility maintenance
- Circuit installation and repair
- Backup/emergency power

SAFETY AND SECURITY

We help our customers mitigate exposure and reduce insurance costs by creating safe, secure environments using a variety of safety/security fixtures and controls.

- Backup/emergency lighting
- Security/fire alarm systems and notification systems
- Video surveillance
- Preventative maintenance

ENVIRONMENTAL QUALITY

We help industrial/commercial customers improve worker productivity, boost employee satisfaction and reduce downtime by enhancing the quality of the work environment.

- Workspace optimization
- Environmental controls
- Data cabling
- Power outlet placement

Our reputation for quality and responsive service has earned Enterprise Electric an impressive list of long-term customers, including:

- Blue Cross of Idaho
- Catholic Diocese of Idaho
- Idaho Ethanol
- Idaho Power
- Sem Material
- Simplot
- XL Four Star Beef
- Winco
- and many more
